

Supplemental Material of

A Novel Heuristic Data Routing for Urban Vehicular Ad-hoc Networks

Ammar Hawbani, Xingfu Wang, Ahmed Dubai, Liang Zhao, Omar Busaileh, Ping Liu, and Mohammed A. A. Al-qaness

Description: This document is a supporting content for the manuscript (A Novel Heuristic Data Routing for Urban Vehicular Ad-hoc Networks, Digital Object identifier: xxx), given the limited number of pages allowed by the publisher. We provided an illustrative numerical example for Intra-Path and Inter-Path, explained in the Section 4 of the main manuscript.

1. AN EXAMPLE INTER-PATH
